I am an enthusiastic and motivated entry-level programmer with practical experience in web development. I possess a solid understanding of HTML, CSS, JavaScript, and MySQL, and have a keen interest in developing scalable and efficient applications. I am seeking an opportunity to contribute to a dynamic software development team, where I can leverage my skills and continue to grow professionally as a developer.

Experience

LGU of Cabanatuan, Technical Support
January 2024 - April 2024
Collected and updated data in a computer system to complete tasks utilizing the LGU systems.
Organized data using Microsoft Excel.

Education

Nueva Ecija University of Science and Technology
Bachelor of Science in Information Technology - Major in Database Systems Technology, August 2020 - July 2024

Skills

JavaScript, MySQL, HTML, CSS

Projects

Scholarship Management System
Developed and designed a scholarship management system using PHP, MySQL, and JavaScript. Specifically, for Local Government Units (LGUs), the scholarship Management System serves multiple purposes. It tracks the status of scholars, provides comprehensive data on scholarships and applicants. It has a crud operation using PHP, MySQL and JavaScript.

Certificates
